*The Steadyhand Income Portfolio is a hypothetical portfolio of Steadyhand funds. See reverse for disclaimers.

¹We offer a rebate of our fees based on the size of your accounts and your tenure as an investor in our funds. Fee rebates apply to accounts over \$10,000 and/or accounts that have been held with us for five years or longer. The stated fee (0.98%) assumes an investment amount of \$10,000 in each fund within the hypothetical portfolio. No rebates have been applied to this fee. Effective January 1, 2012, the fees on the Steadyhand funds will be increased to reflect the impact of the Harmonized Sales Tax (HST). The fee on the Steadyhand Income Portfolio (Hypothetical) will increase to 1.02%.

²The performance of the Steadyhand Income Portfolio (Hypothetical) assumes that it is rebalanced on a quarterly basis to the target fund allocation. The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.

The inception date of the Steadyhand funds is February 13, 2007.
