

# Steadyhand Small-Cap Equity Fund

As of December 31, 2009

## Objective

To grow your capital at a pace that significantly exceeds inflation and provide you with exposure to a collection of smaller companies that think big.

## Is This Fund Suitable for You?

You have a reasonable investment time horizon (over 5 years) and a moderate to high tolerance for risk. Consider this fund if you are seeking exposure to a portfolio of small companies with large potential. This fund will move in a cycle of its own and will often be out of synch with the overall market.

## Geographic Profile

Canada-centric: the portfolio manager looks to the Canadian and U.S. equity markets for small and mid-sized companies. Although the fund typically invests the majority of its assets in Canadian equities, the portfolio manager may invest a significant portion of the fund's assets in U.S. equities in pursuit of opportunities not available in the Canadian market. We do not expect, however, that the fund's U.S. holdings will exceed 40% of its net assets for any prolonged period of time.

Canada 94.5% ■  
U.S. 5.5% ■

## Strategy

The fund holds 15-30 small to mid-cap equities in which the portfolio manager has the greatest conviction. The portfolio manager invests the fund's assets in businesses that have promising prospects and are expected to deliver high relative earnings growth, yet trade at reasonable relative valuations. An ideal holding will be a simple, repeatable business with products or services that are easy to understand. It will have a proven track record of growing revenues, cash flow or earnings per share, an experienced management team that has a significant ownership interest in the business, and a strong balance sheet.
