

# Steadyhand Small-Cap Equity Fund

As of June 30, 2010

## Objective

To grow your capital at a pace that significantly exceeds inflation through exposure to a collection of smaller companies that think big.

## Is This Fund Suitable for You?

You have a reasonable investment time horizon (over 5 years) and a moderate to high tolerance for risk. Consider this fund if you are seeking exposure to a portfolio of small companies with large potential. This fund will move in a cycle of its own and will often be out of synch with the overall market.

## Geographic Profile

Canada-centric: the portfolio adviser looks to the Canadian and U.S. equity markets for small and medium sized companies. Although the fund typically invests the majority of its assets in Canadian equities, the portfolio adviser may invest a significant portion of the fund's assets in U.S. equities in pursuit of opportunities not available in the Canadian market. We do not expect, however, that the fund's U.S. holdings will exceed 40% of its net assets for any prolonged period of time.

Canada 93.7%  
U.S. 6.3%

## Strategy

The fund holds 15-30 small to mid-cap stocks in which the portfolio adviser has the greatest conviction. The adviser invests the fund's assets in businesses that have promising prospects and are expected to deliver high relative earnings growth, yet trade at reasonable valuations. An ideal holding will be a simple, repeatable business with products or services that are easy to understand. It will have a proven track record of growing revenues, cash flow or earnings per share, an experienced management team that has a significant ownership interest in the business, and a strong balance sheet.
