

Steadyhand Founders Fund

As of September 30, 2018

Steadyhand

Objective

To provide a combination of capital growth and income through investing in a diversified collection of Canadian and foreign stocks, bonds and money market securities.

Is This Fund Suitable for You?

You have a medium to long-term investment time horizon and a medium risk tolerance. Consider this fund if you are seeking a balanced portfolio of stocks and fixed income securities and the oversight of an industry veteran (Tom Bradley) to make asset allocation decisions. The fund is designed to serve as a one-stop solution and a core holding within a portfolio, if applicable.

Strategy

To achieve its objective, the fund invests in Steadyhand's income and equity funds. The underlying fund mix will be a reflection of Tom Bradley's views on market valuations and asset mix. The portfolio has a long-term targeted mix of 60% equities and 40% fixed income, but the equity portion may range from 40% to 75% and fixed income from 25% to 60%. The manager will make tactical shifts in the fund's asset mix when he feels that stock or bond valuations are at an extreme.
