## Objective

To grow your capital at a pace that significantly exceeds inflation through exposure to a collection of leading businesses throughout the world.

You have a reasonable investment time horizon (over 5 years) and a moderate to high tolerance for risk. Consider this fund if you are seeking exposure to a concentrated portfolio of companies in North America, Europe and Asia.

## Geographic Profile

Global: the portfolio adviser invests in equities around the globe. Concentration is focused in the developed world — the United States, Europe and Japan in particular. The fund's geographic allocation may vary considerably based on where the best opportunities lie.

## Strategy

The fund concentrates its assets in around 50 stocks. To be considered for inclusion in the fund, a company must possess the following attributes: (1) a clear competitive advantage with significant barriers to entry; (2) strong pricing power; (3) an experienced and proven management team; and (4) a healthy balance sheet. In addition, the manager seeks companies where there is a key to unlocking value, such as a new CEO, restructuring program, or change of ownership. Finally, valuation plays a key role in all investment decisions.
